Is there something that can be useful for all students? Mr. T – would possibly like to use the I ready program for the whole school. – use extra intervention money for this program and may need another way to fund it.

Academic needs/ incentive program

School has spent over \$1000.00 for incentives.

Parents have complained about certain aspects of the program.

Should there be a change?

General consensus is to leave it how it has been set up.
